

Established in 1975, Rifco is an Australian-owned family business producing superior Australian-made bathroom cabinets nationwide. With years of experience, Rifco has developed a well-deserved reputation for excellence and quality when it comes to mirrored bathroom cabinets, becoming a name you know and trust.

The Overlay is a simple yet stylish cabinet designed to complement any bathroom. A great alternative to just a mirror, the Overlay contains all the space you need to keep your bathroom neat and tidy.

It is perfect for his-and-her storage and ideal for recessing into your wall or simply mounting on the surface of your bathroom. Either way you get the appearance of a mirror but also the bonus of hidden storage.

The Overlay range comes in a vast array of sizes and optional finishes, such as bevelled mirrors and gloss sides. And, if you can't find the size you are looking for, Rifco can design and make the cabinet to your bathroom needs. **KBO**
